

At Last! A Complete Fluid Nutrient Solution

Nutri Complete™

A combination of 11 Essential Nutrients & 5 Biostimulants

Nutri Complete has a complete and balanced NPK analysis suitable for fertigation and foliar application across a wide range of turf and landscape situations. The analysis is perfect for plant establishment and maintained growth where a N : K ratio near 1 : 1 or a mid-season nutrient boost is required.

Benefits of Nutri Complete

- Chelated trace elements for rapid plant uptake and to drive the NPK metabolism.
- Contains SLTEC®'s **QuadSHOT®** - These ingredients stimulate soil biological activity; improving the cycling and availability of plant nutrients, plant uptake efficiencies and soil fertility and health.
- **Nutri Complete™** has a high analysis compared to other liquid products and provides economic and efficient supply of nutrients plus the capacity to reduce rates compared to common prilled complete fertilizers.
- Efficiencies can be made with **Nutri Complete™** in fertigation applications by placing the nutrients at the root mass where they will be taken up by the plant; reducing loss or waste of nutrients.
- Chloride free.

Also Available;

Nutri Phos Complete™

The analysis of Nutri Complete™ with Phosphonic Acid to aid in suppression of diseases including Pythium, Fusarium and Phytophthora.

Guaranteed Analysis

Nitrogen (N):	11.8%
Phosphorus (P):	4.8%
Potassium (K):	13.6%
Sulfur (S):	2.0%
Calcium (Ca):	0.01%
Magnesium (Mg):	0.2%
Manganese (Mn):	0.006%
Zinc (Zn):	0.01%
Copper (Cu):	0.005%
Boron (B):	0.02%
Iron (Fe):	0.01%
Molybdenum:	0.005%
Fulvic Acid:	0.01%
Fish Emulsion:	0.42%
Humic Acid:	0.34%
Kelp:	0.42%
Molasses:	0.42%
Specific Gravity:	1.29 - 1.32 kg/L
pH Range:	7.5 - 8.5

Typical Application Rates

Fertigation

10 to 80 L/ha towards the end of the irrigation shift.

Recreational & Amenity Horticulture, Parks & Gardens

100 to 800 mL/100m² with a minimum of 100L/100m² water.

Foliar Top-Dress

5 to 20 L/ha with a minimum of 200 to 600 L/ha water.
